Don:

Superior Crude had a spill. Do you want to do anything?

Subject Falcon Refinery

Gary, I left you a voicemail on your cell phone but wanted to be sure that I report a spill in writing.

Yesterday (June 25) late afternoon Superior Oil experienced a release from Tank 13, which they lease from NORCO, at the Falcon Refinery. We do not have an estimate of the amount of the release. Superior has a backhoe that's moving soil to contain the released crude oil and has a vacuum truck on site to recover the spilled crude oil. The spill had nothing to do with removal actions covered in our work plans.

We have taken pictures in the field, however they are still in the camera.

Please let me know if you need additional information.
